## a beauty & skin repair miracle

Electric Body Skin Elixir is the most unique, technologically advanced skin care product on the market today. Its colostrum based formula is truly a skin repair miracle – a beauty product that revitalizes, rejuvenates and sustains vitality and radiance at a level never seen before in the cosmetic industry.

Swiss Certified as nontoxic, Skin Elixir was developed by cancer researcher Denie Hiestand in response to a plea from one of his clients with breast cancer. Free from toxic chemicals and parabens, Skin Elixir is not only a fabulous all-in-one facial cream with anti-aging and anti-wrinkle properties, but has also been shown to significantly speed the recovery of skin tissue following trauma and surgical procedures.

Whenever the body undergoes invasive surgery or treatment, the skin's natural defences are lowered, which also decreases the body's natural defences. In such situations, it is imperative that any products used on the skin are free from chemicals and toxins and only contain the most pure, life-giving components that help the skin recover, re-energise and revitalize.

Kevin, who had recently had skin grafts, used Skin Elixir following surgery, "I used Skin Elixir on my nose after having surgery and skin grafts and now, after about 3 months, you can't see any scarring or damaged tissue. Everyone is commenting on how good my skin looks and feels and my surgeon is amazed at the results. Thank you!"

Skin Elixir can be used anywhere on the body and on all skin types including dry, oily, cracked, sensitive, delicate, itchy and inflamed. Ineke Bokkerink, a Natural Health Practitioner, had a dramatic improvement in her eczema after using Skin Elixir, "Childhood eczema caused my facial skin to be dry and overly sensitive to any skin cream. I have been using your skin cream for over a year now and my skin has been nourished back to a healthy look."

Because it's such a life-giving food, Skin Elixir eliminates the need for multiple products for different purposes. It truly is an all-in-one product and has seen

incredible success in the treatment of burns, cold sores, cuts and bruises, hormonal spots, scarring and stretch marks – the list goes on! Ana has suffered from herpes for 25 years and was amazed to discover that Skin Elixir stopped an impending blister from developing, "I got myself stressed and sure enough, the feeling of the blister started. I thought of putting on the EB Skin Elixir. To my total amazement the blister never progressed and the cream seemed to keep it under total control, after only a couple of days the whole episode was over. Thank you so much for your wonderful product!"

The beauty of Skin Elixir is that it feeds the cells and re-energizes them so they can reconnect with their innate DNA code and remember their inherent purpose, enlivening and rejuvenating at their core essence to nourish the skin back to full vibrancy. Much like putting the best petrol into your car, or feeding a baby the most nutritious food possible, Skin Elixir offers the cells nutrition at the DNA level so that each cell can function to its ultimate potential.

Colostrum, Skin Elixir's key ingredient, is a major player in the reactivation of cells. Colostrum is the 'first milk' that all mammals feed their newborn babies. Essentially, colostrum 'fires up' the electrical circuits in the body and tells each cell what to do and how to do it. The electrical matrix of the combined ingredients is such that the body recognizes and utilizes it to help in the recovery and rejuvenation of each cell back to its full potential. That is why people experience a feeling of increased energy and

why many people receive compliments about the glow and vibrancy of their skin.

Many women have commented that they no longer need to use make-up as their skin has a natural, healthy glow. "After using the skin cream for 2 days, my skin was glowing so much that the need for make-up was negligible. Women are commenting on my glow and are asking what product I'm using. Of course I tell them, Electric Body Skin Elixir!" says Bev Bonnar, a keen user.

Electric Body is excited to offer this unique all-in-one product to cosmetic surgeons and individuals seeking the absolute best in chemical free, non-toxic and incredibly effective skincare. To locate your nearest stockist, or to enquire about becoming a stockist, please call 0800 88 SKIN (7546), or email [shelley@electricbody.co.nz](mailto:shelley@electricbody.co.nz).

Chrissie, a 41 year old Business Development Manager discovered the miracle of Electric Body Skin Elixir after being hit on the forehead with a golf ball. After using Skin Elixir on and around the wound, Chrissie was stunned at the speed at which she healed.

"While camping over the holidays, we went golfing and I got hit just above my right eye by a golf ball, the ball hit me right on my forehead which started to bleed. I was so worried about my face and that I was going to have a scar. My job is Business Developer and I have to deal with people directly every day. I still can't believe how well the Electric Body skin repair cream worked! It's a miracle! After ten days you wouldn't know that I had had black eyes and stitches. And even better is that it is a chemical free, non-toxic, child safe cream you can apply to any skin type. It is not only a fabulous skin repair cream but primarily it is a beauty cream that helps create healthy skin, reduce fine lines and wrinkles and it really has made my skin glow. I feel that every household should have this product!"
